

## TAX YEAR 2022 CLIENT UPDATE

Dear Client,

Our firm looks forward to helping you with your 2022 income taxes! Tax returns must be filed by **April 18, 2023**. I hope everyone has had a healthy year. In the last year, there have been many changes, not only in the tax law, but also in the regulation of tax preparation. Enclosed is a list of items to keep in mind while gathering your tax documents. We know that changes can be very confusing, so we aim to help create a smoother tax season for all.

Due to IRS regulations, our firm must e-file your income tax returns. You can mail a check for tax payments or receive a check for tax refunds, but your income tax returns **must** be electronically filed. You have four options to deliver your tax documents to our office:

1. **Mail** all original documents to our office;
2. **Call** our office to schedule a personal meeting; *Appointments are limited to those who have had life-changing events throughout the year. There will be an additional fee for sit-down appointments.*
3. **Drop off** your documents at our office without a personal meeting;
4. **Scan** all of your documents and send via e-mail.

Our office will return a copy of your tax returns and all original documents.

For your convenience, a copy of the **tax organizer** is available on our website. Visit **SALASACCOUNTING.COM**.
